220	OMAR AHMAD ALMAJALI	Integrated Generation LLC	Jordan	<p>Brief Overview of Ketabi: History and Establishment: Ketabi was established in 2020, born from the vision of Omar, a Jordanian-American computer engineer with a deep passion for leveraging technology to enhance education. Recognizing the challenges parents face in managing their children’s online activities and the scarcity of safe, educational content, Omar teamed up with a veteran educator with over 35 years of experience. Together, they aimed to create a digital platform that would redefine children's screen time. Structure: Ketabi operates as a social enterprise under the umbrella of Integrated Generation LLC, showcasing a blend of technological innovation and educational expertise. Our team comprises dedicated professionals in development, product management, and educational consulting, all working together to make Ketabi a leader in digital learning.</p> <p>Ambitions: Our ambition is to transform Ketabi into a global leader in safe, educational technology for children. We envision a world where every child, regardless of their socioeconomic background, has access to quality education through our platform. Ketabi aims to empower parents with the tools to guide their children's digital experiences positively and create opportunities for women in vulnerable communities to contribute as content creators.</p> <p>Vision: To unlock the true potential of children worldwide by making digital learning safe, engaging, and accessible.</p> <p>Mission: To provide a comprehensive digital platform that manages screen time, filters content, and offers personalized educational experiences, thereby empowering</p>	Smart Technology, Artificial intelligence, and ICT, Education

263	ALEKSEI CHUNOSOV	EDAGUM SM RUS	Russia	<p>“EDAGUM SM RUS” LLC (Moscow) is a Russian manufacturer of premium quality organic fertilizers based on environmentally friendly plant raw materials. Brand: EDAGUM® The effectiveness of Edagum organic fertilizer has been confirmed by scientific research of 35 specialized Russian and foreign research institutes. Edagum is used to increase productivity and improve product quality, reduce the use of chemical fertilizers and pesticides, restore soil fertility and the environment. Fertilizer is approved for use in organic farming in Russia, Egypt, the EU, and the USA. As the best Russian organic product, Edagum fertilizer was selected by the Russian Ministry of Economic Development for promotion in foreign agricultural markets, about which Agreement No. was concluded between the Ministry and the company. C-923-AY/Д12. Projects for the use of Edagum are under the control of the Russian-Pakistani and Russian-Lankan Intergovernmental Commissions. Since 2010, the Ministry of Agriculture of Turkmenistan has been purchasing Edagum for use on the main crops supervised by the state: wheat, cotton, rice. During 2022-2023 under the supervision of the Ministry of Agriculture, extensive trials of Edagum were carried out on many crops in all governorates of Egypt. The test results aroused great interest in the Egyptian market and commercial deliveries of Edagum have already begun. February 22 this year In Cairo, under the auspices of the Ministry of Agriculture, a seminar “The Future of Safe Agriculture in Egypt” was held, which was attended by government officials, leading scientists and owners of the largest farms in Egypt. At the seminar there was a presentation of our product and the results of its use in Egypt. The Egyptian</p>	Agribusiness / Agritech, Manufacturing
